Eriez® Offers Resource Guide for the Coal Processing Industry

Erie, Pa. — Eriez® announces the availability of its [“Resource Guide for the Coal Processing Industry”](#) brochure. This helpful guide provides an overview of Eriez’ wide array of products that were developed to assist in the processing of coal.

According to the literature, no other source designs, manufactures and locally supports such a variety of equipment to convey, clean and analyze coal. “Eriez continues to lead the market in specialized coal equipment,” says Dan Norrgran, Eriez Heavy Industries Market Manager. “We are truly a one-stop resource,” he adds.

The literature highlights Eriez coal processing equipment, including Mechanical Feeders, Heavy Duty Feeders, Conveyors and Screeners, Wet Drum Magnetic Separators, CoalPro™ Column Flotation Cells, CrossFlow® Teeter Bed Separators, Suspended Electromagnets, Bin Vibrators and Metal Detectors.

“Resource Guide for the Coal Processing Industry” also explains that Eriez offers Engineering Services to cover a wide range of functions, assistance and support. Engineering features related to specific equipment and coal processing are as follows:

- Equipment modifications incorporating specific features and options
- Equipment layout and dimensional drawings
- Equipment selection, sizing, material flows and balances
- In-plant audits to determine production flow rates, material handling aspects, equipment selection and sizing, and predict performance

For more information on Eriez coal processing equipment or to download a copy of “Resource Guide for the Coal Processing Industry” in PDF format, visit <http://www.eriez.com/Products/CoalProcessing/>. To obtain a hard copy of this literature, contact Eriez and request brochure B-66.

EQUIPMENT OVERVIEW

Eriez’ wide array of products was developed to assist in the processing of coal. No other source designs, manufactures and locally supports such a variety of equipment to convey, clean and analyze coal. Eriez is truly a one-stop resource. More information is yours for the asking. Contact us today.

MECHANICAL FEEDERS, CONVEYORS & SCREENERS

Heavy-duty, high-capacity feeders for the controlled movement of coal. The Eriez Model HVF mechanical feeders are simple, rugged, vibrating units that move high volumes of bulk coal reliably and economically. The compact, straight-line design results in a low-profile feeder requiring minimum headroom.

WET DRUM MAGNETIC SEPARATORS

The Eriez Self-Leveling wet drum magnetic separator is unequalled in operation and performance. The “plant-proven” design provides the highest magnetite recovery in the industry. The separator has been designed to handle fluctuations in slurry flow and magnetite content coupled with simple straightforward control and operation.

COALPRO™ COLUMN FLOTATION CELLS

State of the art column flotation design using Slam-Jet® spargers. Increase plant yield with the recovery of fine coal. High-capacity columns with low operating and maintenance costs.

CROSSFLOW® TEETER BED SEPARATORS

High capacity density separator operating on the teeter-bed principle. Tangential (cross flow) feed design provides high-capacity operation with effective density separation. Upgrades run-of-mine coal producing a high-ash refuse product. Easy, on-line cut-point control.

SUSPENDED ELECTROMAGNETS

Eriez Model 7000 Series of suspended electromagnets remove tramp metal from conveyor lines. Designed for effective tramp metal removal and sized for any belt width. Manual cleaning and self-cleaning models available. Built to last and now with a five year coil warranty — longest in the industry! Ten day delivery on select models.

CALL 800-345-4946 TODAY FOR MORE INFORMATION

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through ten international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit www.eriez.com or send e-mail to eriez@eriez.com. Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
